“ *Miss Eulene moved into Legacy a few weeks after I started my nursing career there. She was a caring, beautiful, and graceful lady, who loved her family. She loved to talk about her travels, her husband, and her children, grandkids, and great grandkids. She had a story to tell about each and every picture in her room. To see her face light up with visits from friends and family was priceless. She was a friend and I considered her my 'work mom'. I will deeply miss her.*
