“ *Uncle Jerry was one that could always make you laugh when you wanted to cry!! Lord knows how much I have since I have heard about what happened. But he would always tell me to remember the good times we shared. Lord it would take me the rest of my life to share all the good times we had!!!! Memories of when I was a child and going to Granny and Granddad Vaughn's house and getting to wrestle with him and Norris to him being here for my kids when their Dad passed. He was always such a gentle person who could also show some of the Vaughn traits as they were called. But always a sweetheart. He loved to fish and drink his coffee. I can't tell you how many times we shared a cup of coffee, and just sit a spell and chat. It is hard when you lose someone that was more like your older brother than Uncle. Hard to explain. I just want Debbie to know that she is loved more than she realizes. She loved our uncle more than anything. She was his backbone when he needed it and when he didn't. She is in my thoughts more than anything and Jerry would want us all to take care of her, be there for her, and let her tell us whatever she wants to say about her time with him. Debbie, you have and always will be a treasure in memories that you had with our Uncle. REST IN PEACE Uncle Jerry. Know that life isn't going to be the same without you in it. Give my Dad, Granny and Granddad a hug from me and tell them it won't be long till we are all there together again. Love you always and thank you for the memories.*
