“ So sorry I was unable to make the funeral. When I think of Kenny in high school, I think of him being funny trying to get people to laugh which he did. So glad we were able to reconnect on fb. I had cancer a few years back and he would make a comment when I put something on there and tell me he was praying....my prayers for the family, for his girls which he was always talking about on fb. He loved his girls. I don't think I have seen Kenny other than on fb. But thankful to have seen his life on fb and love for his family. Y'all are in my prayers...with love Sheila Williams
